## ABDUL HAMID, EX-SULTAN OF TURKEY, MURDERS TWO WIVES

He is Now in Irons Following Wanton Murder of Two Sultanas.

WAS SUBDUED BY SOLDIERS AFTER A FIERCE STRUGGLE

Horrible Ending to Aged Sultan's Life of Cruelty and Crime.

Saskatoon, Feb. 5.—Abdul Hamid, the deposed Sultan of Turkey, killed two of his wives today and was locked up in a cell, violently insane.

His struggles are so violent that he has been put in irons, but he continually raves and moans.

The ex-sultan killed his two wives with his bare hands. He choked one to death, and then strangled the other and buried her against a wall.

The woman's brain was injured and she died some hours later.

Soldiers were then sent to take the ex-sultan, but he, with insane cunning, expected this move and fought off all attempts to arrest him in his villa. Finally, after a terrific struggle, in which he was severely injured, he was captured.

Abdul Hamid is confined in a dungeon beneath the Villa Atlante, which while set apart for him as a residence, is in fact a prison. He was sent there in April, 1909, when the Turkish revolution brought about the fall of the Sultan. He was finally confined to Sultan Mohammed V. succeeded the throne.

Abdul Hamid had reigned for thirty years up to that time and had delighted in having tricked the diplomats of all Europe from time to time and had shocked the world by his sensuality and crimes.

When Abdul was sent to the villa here his wife, which was allowed to accompany him, was composed of three Sultanas or full wives; four concubines, or inferior wives, and a harem of housekeepers, privileged to go out of the harem, two princess, his daughter and nine servants. This really gave him the allowance of twelve wives.

ARNOLD SMASHED GRISCOM.

Fight for Possession of Missing Heiress.

New York, Feb. 5.—Immediately following publication of cable despatches from Philadelphia, which gave details of a personal combat between John W. Arnold, brother of the missing heiress, Dorothy Arnold and Griscom, Jr., of Pittsburgh, it became known today that Mrs. Arnold, the girl's mother, and Griscom, are racing across the ocean to New York, the young man two days ahead.

The despatches tell of the fight between the two men, which was given the details substantially as follows: Arnold and Griscom, Jr., were at the Florence hotel, where Griscom was stopping, and asked him for a letter which had been written to him by the missing girl and which he had in his possession. Griscom refused to give it up and Arnold struck him, Griscom grappled with his opponent. However, he was no match for Arnold. The latter struck him on the forehead with a blow in the face, knocking him to the floor. Then he took the letter away from him.

John W. Arnold and John Keith, a lawyer, made a hurried trip to Philadelphia, following information that came into their possession from a man whose name was not revealed, but who reported to the Arnold family that about 1.20 in the afternoon of December 12, he saw the girl in a motor car. The man recognized the chauffeur as a resident of Philadelphia, whom he knew.

NEW TUBERCULOSIS CURE.

New Serum Declared to Have Remarkable Curative Effect.

San Francisco, Feb. 5.—Remarkable cures are said to have been made in severe cases of tuberculosis, pneumonia and typhoid fever at the Southern Pacific Hospital during the winter by a new serum of treatment discovered by Dr. Schafer, of Boston.

Nine patients suffering from pneumonia were inoculated with the serum and were cured. In every case the patient was cured, several of the cures being within twenty-four hours. The serum was given in four doses. Similar success with typhoid fever.

No More Pay to You Teacher.

Toronto, Feb. 5.—The pay-as-you-enter system in Toronto is no more. Chairman James Leach, of the public works railway and municipal board, says it is useless this morning by repealing the ordinance which gave it effect which it was inaugurated.

## ONTARIO OPPOSITION PROBING THE DEALS

Sale of Mills Limit for \$150,000 Which Would Four Months Later for \$250,000 Cuts Down Criticism on Mayor Administration.

Toronto, Feb. 5.—The Ontario legislature set for three hours today the afternoon debate taken up with addresses by Mr. Clarke of West Toronto, Mr. Johnson of St. Catharines, Mr. Hastings, and Mr. McNeil of St. Catharines.

The debate on the budget introduced last Thursday by Hon. Mr. Gillingham, the provincial treasurer, prolonged debate is expected, a majority of the opposition members intending to speak on the province's finances.

Mr. Clarke criticized the government's course in selling portions of the province's public utilities, minerals, without consulting the House or advertising the sale widely.

## MONTREAL IS NOT RAISING HOWL

Reciprocity Proposals Do Not Injure Canada's Biggest Manufacturing Centre.

Montreal, Feb. 5.—The industrial and commercial world has had ample time to digest the reciprocity announcement, and it is much easier now to get a clear and concise view from those vitally interested in the way the affairs of the country are being handled.

## MAY MESSAGE

It is timely to devote a few lines to the whereabouts of Mr. Goethals, ambassador extraordinary to the Province of Alberta, from Mr. J. Pierpont Morgan of the City of New York, and proprietor-in-chief of the United States of America.

Mr. Goethals was reported at Montreal, travelling westward, and coming back, his mission to the Government, the court, the Legislature and the people of the great Province just what John Pierpont thought should be done with the A. and G. W. money. It was also hinted that he was the bearer of information as to what Pierpont would do to us if we did not fall in with his idea. Precisely what our fate would be in that case, the dispatches were not so clear. A veiled mystery is the most interesting and interesting bit of information the ambassador showed his shrewdness. It was left to our imagination to supply the details of the future, which would be nothing of it, being the scolding kick, the rope, the plank, the guillotine, the guillotine, or what other kinds of cruelty, savage or refined, history and romance have told us about. At the end of the declaration that John Pierpont knew what he wanted done, and that unless we agreed to it, he would prepare for something else.

It now seems that if anybody did any shrewdness over any other shrewdness, it was Mr. Morgan's interference here was nothing but unnecessary. Mr. Goethals has failed to connect. He has had ample time to reach Edmonton, and to deliver his Jerusalem. But he seems not even to have come hither. If he did not it was in surreptitious manner, and silence held his tongue. The Government has heard nothing from him. The newspapers have not discovered him. He has not signed among the hotel arrests. The police know nothing of his whereabouts. It may be taken for granted that if Mr. Goethals ever started for Edmonton he did not return. The conclusion is that if he did not return, it is much to be doubted—how was he recalled on route and sent off on some other business. As the bearer of John Pierpont's views and threats to Alberta he has vanished from the scene.

Moreover, when the case of the Province versus the Royal Bank came in court recently the Government had not even the faintest idea of what was going on. It was not until the day after yesterday that Mr. Morgan was not even in the matter or to have any in the disposition of the money. As the bank applied to have Mr. Goethals made defendant in the case, he was not in the case, he was not in the case.

Mr. Morgan had not even been able to count for the bank, and he could have said so, and produced the missing Mr. Goethals. He did not do the kind, and allowed the Province's lawyer to make the point that presumably Mr. Morgan was not anxious to have a say in the settlement.

Yet again, now comes the announcement that Mr. Morgan has no intention of interfering in the matter in any way. That he ever had such a thought, or desire to do so, is doubtful. If Mr. Morgan wishes to make good the injury his house has received from its previous part in this historic matter there is another way open to him and one he is much more likely to take. To show a disposition to interfere would certainly do nothing to enhance a suspicion which he has about his share in the handling of the funds. His refusal to do this puts the duty upon those who claim to be interested in proving that their wish was not the father of the story that he would do.

Mr. Goethals' mission, until he is shown, will not be put down to the restless imagination of a newspaper leader of the opposition, or some other enemy of the Province's claim to the money.

Reefer accommodation for months in advance is sold out on many of the steamers plying between Britain and Canada. The prospect is said to be for a greater movement of British born people to Canada than during any previous year. The immigration restrictions—about which there was such a hubbub a year or so ago—do not seem to have discouraged immigration from the old lands to this country to any considerable degree. We are getting more people from the British Isles than ever before, and they are of the best and most adaptable type.

A member of the British Parliament is reported as characterizing the reciprocity agreement as the first act in the tragedy of the poisoning of the British Empire. Language of that kind has one useful effect. It develops loyalty to the Crown among British over-seas and gives them a new insight into the meaning of the National Anthem. Canadians will not be able to more fully appreciate the perils which surround His Majesty's throne, and will more clearly see the necessity of Divine intervention to preserve him from the delving idiosyncrasy of some of the much less loyal subjects and up to Parliament.

Three advisers propose to fly over the Inland and the Government lines in Mexico in order to test the usefulness of the aeroplane as a means of making observations in war time. The result will have something to do with the future of the aeroplane as a means of making observations in war time. The result will have something to do with the future of the aeroplane as a means of making observations in war time.

The Democrats have voted to support the reciprocity agreement. They evidently believe in doing at Washington for what they grumbled from the reciprocity agreement. The dispatches bring frequent proof of the necessity and wisdom of Mr. King's plan to the Legislature of the province. The result will have something to do with the future of the aeroplane as a means of making observations in war time.

WHOSE JOB IS CORRUPT? Toronto Globe: The News revealed upon to save the people of our province from the hands of the supposed evil, which threatens them. The evil is higher prices for food. It is according to the News, likely to be brought about by the removal of the American tariff. The News and the Liberal Government can do to avert the supposed evil is to keep up the American tariff by resisting and annoying the Americans with our tariff. EPIDEMIC OF GRIP AT LONDON. Many of the Factors' Running Short—London, Feb. 6.—London's factories are experiencing trouble through the epidemic of grip. The grip has been spreading through the city for the past month, and is keeping many of the factory men at home. The grip has been spreading through the city for the past month, and is keeping many of the factory men at home.

IMPLEMENT DEALERS MEET. Annual Session of Wholesale Retail Dealers—Calgary, Feb. 6.—The annual meeting of the Alberta Wholesale Implement and Carriage Dealers has been held on Saturday night at the Calgary Hotel. The meeting was held on Saturday night at the Calgary Hotel.

MILK-LONG EARTH SLIDE. Has Completely Covered Thirty-Foot Bank of Panama Canal—Washington, Feb. 6.—Another great earth slide, a mile long, has taken place in the Panama Canal, and already has completely covered the thirty-foot bank of the canal opposite the Harris Company's wharf. The slide began, according to reports, on the night of January 18, on the west bank of the canal opposite the Harris Company's wharf.

PARCEL POST WITH BRITAIN. Lemieux Promises to Bring Another Quotation of Rates.—Montreal, Feb. 7.—Hon. Rodolphe Lemieux and Mrs. Lemieux arrived in Montreal from Ottawa last night. This morning at the Gare du Palais, in the post office building, the Minister-General was called on by the Montreal business men, who urged prompt action by the government to reduce the postal rates and to increase the material of parcel post with the other countries.

## WINTER WHEAT AREA IN ALBERTA IS GOOD

Thomas Acheson, General Grain Inspector of the C. P. R., estimates the area of winter wheat in Alberta at 230,000 acres. Good conditions he declares after inspection trip.

Winnipeg, Feb. 7.—"I estimate that the total should be 230,000 acres," said Thomas Acheson, general grain inspector of the C. P. R., when speaking of the prospects of the winter wheat crop for 1931. Mr. Acheson has just returned from an inspection trip in the West, and his conclusions are drawn from the conditions which he has witnessed.

"Starting at Calgary," he said, "I examined fields of winter wheat from the west, and my conclusion is that the total should be 230,000 acres. I estimate that the total should be 230,000 acres. I estimate that the total should be 230,000 acres."

Particular people who want a particular flour can't help buying SEAL OF ALBERTA. Actually we wash every kernel of the wheat it is made from. It is cleaned by separators—that is done at most mills—then it is dry scoured, but even that isn't enough. So we actually wash it to remove any possibility of impurities from the grain. This cannot be done at the ordinary mill. It takes too much power. It is too great an expense. That is another reason why SEAL OF ALBERTA is a purer, better flour.

Now the wheat is washed in warm water. That enables us to bring it to the right temperature before milling, and the milling process can be carried along better with the wheat at a certain temperature. That's another reason why you should say "SEAL OF ALBERTA, PLEASE," when ordering flour.

Pains or Cramps

## AROUND THE CITY

## LOCAL.

Haymond Bradford, general manager of the Edmonton Interurban Railway Co., leaves for Montreal tomorrow.

Rev. W. A. Lewis, of Norwood, Methodist church, will preach at the special service tonight at the Salvation Army barracks.

The officers and members of the Edmonton Homestead, No. 2344, Vernon, will hold an informal reception in the Mechanic Hall, February 10th.

The regular meeting of the Edmonton Irish Association will be held in the Mechanic Hall tonight at eight o'clock. A large attendance of members is requested.

The funeral of Florence Robinson, the 12-year-old daughter of W. G. Robinson, 19 Stewart street, who died yesterday morning, will take place this afternoon at 2:30 from her father's residence.

Excavations for the construction of a six story brick with 76 feet elevator to Fifth street at the corner of Elizabeth street and First street, will be commenced during the next few days. The building, which is to be erected by Reid, Tegner, will cost approximately \$110,000.

Extensive improvements and additions to the Yale Hotel will be made in the near future. The adjoining property, formerly occupied by the Hub-Clear House, has been secured by Reid, MacDonald, proprietor of the Yale, and will be converted into hotel premises.

The special attractions to be provided for the 1911 Edmonton exhibition were the subject of discussion at the meeting of officers of the city held on Monday evening, when a contract was entered into with the Parker show, who in addition to providing the mid-way attraction, will also provide platform attraction which alone will cost the association more than \$1,000.

## WILL RESIDE IN EDMONTON.

Lt.-Col. Maynard Rogers, former commander of the 4th Regiment, Ottawa, will leave the capital shortly to take up his residence in Edmonton. He served with distinction in the Northwest rebellion and also in the South African war.

## DIED YESTERDAY AFTER HIS WIFE.

The death occurred yesterday afternoon of Edwin Kent, caretaker of the First Baptist church, who for some time past has been a patient in one of the Edmonton hospitals. He was aged 47-48 years. His death followed close upon that of his wife, who passed away under peculiarly unfortunate circumstances during the early part of last month.

## HOW TO BE SURE FIRST.

The remains of the late W. Beverly Allison of the arm of Lavelle & Allison, Strathcona, who died yesterday morning in the General Hospital, will be sent to the home of his parents in

Rockville, N.H. this afternoon. There will be a service today at one o'clock at the parlors of Connolly & McKinley. Deceased was a nephew of Mrs. C. W. Macdonald and a cousin of P. M. C. Crosskill, of this city.

## W.P.M.S. PRESBYTERIAL.

The third annual meeting of the Edmonton W.P.M.S. Presbyterial will be held in the schoolroom of the First Presbyterian church, on Thursday, Feb. 9th. The morning session will be held at ten o'clock, for business, reports and election of officers. The afternoon session will be at half past two. There will then be a social hour.

Missionary meeting with address and music, followed by tea and a social hour, for delegates and friends. The evening session will open at eight in conjunction with the meeting of the Presbyterial to be addressed by Rev. W. D. Reid, superintendent of missions and Rev. E. Graham of Port Huron, Mich. There will be special music. A cordial invitation is given to the public to be present at these meetings.

## WILL REMAIN SETTLEMENT.

"The use of South African scrip in the Grand Prairie country will undoubtedly prevent the country from becoming thickly settled for some years," said Rev. C. P. Hopkins, Methodist missionary stationed at Macdonald Lake, which is in the centre of the Grand Prairie country, and who is visiting in the city. "The practice has been for each member of the various families who have gone into the country to locate one of these scrips as well as to take up a homestead. The result has been that one family may successfully blanket an entire lot of land several square miles in size for a good thing for the better in so far as the possession of land is concerned, but for the population of the country it cannot be held to be advantageous."

Mr. Hopkins went into the north-west country last May. He immediately set about building a church house in which to hold service. He succeeded in erecting a very creditable building, which will eventually be used as a parsonage when a new and more elaborate church edifice is constructed.

This year was a very good one for the farmers in Grande Prairie. Mr. Hopkins states and this year another great influx of homesteaders is expected. The establishment of a sub-land agency at Grande Prairie will be a decided improvement. Up to the present homestead entries have had to be made at Lesser Slave Lake or upon the periodical visits of the Lesser Slave Lake land agent, Mr. Peter Thompson, to Grande Prairie.

Mr. Hopkins thinks that the fire which swept over the country here during the River and Furber, on the Peace River, has done good in that it has cleared this part of the country of brush and it is once again prairie land.

Mr. Hopkins will return to the north country in the course of the next ten days in order to be well on his way before the break-up in the roads and rivers occur.

## MEMBER OF SURVEY PARTY DIED ON TRAIL.

Remains of Sherman H. Spence, a Private Employed at Different Times in Newspaper Offices of the City, Brought in From West Night.

The remains of Sherman H. Spence, 267, an Edmonton printer, who left the city several weeks ago with a survey party going west to the Athabasca were brought to the city last night from the west and taken to Anderson's undertaking rooms.

Death was due according to those who brought the body to the city either to heart failure or to exposure during one of the cold nights the latter part of last week. An inquest will be held by Dr. Forts this afternoon to determine the exact cause of death.

Spence was walking some distance behind the teams while near the junction of the McLeod and Athabasca rivers. Those in the sleigh did not miss him for some time but when they camped for the night and he did not appear they went back in search. They could find no trace of him that night but next morning he was discovered badly frozen and dead. The unfortunate man was a native of Ontario but it is said that his father or now resides in Winnipeg. He came to Edmonton last July and has been engaged on the Bulletin, Journal and Capital. He left the Bulletin shortly after Christmas and the latter part of January joining a survey party who were to work near the Athabasca river.

## EASTBURG.

Bulletin News Service. Chas. H. Haynes of Spokane, Wash., and brother of the late Herbert A. Haynes, was here the past week looking after business matters relating to his brother's estate. He will take his brother's remains back to Spokane for burial.

I. D. Graham was elected collector to fill the vacancy, occasioned by the resignation of J. McGregor.

J. McGregor and family are about to return to the Old Country where Mr. McGregor has a government position.

A special school meeting is called for Monday to elect a secretary and treasurer in place of J. McGregor.

H. B. Poulsen is getting out timber for a new barn.

Rev. Mr. Semore, preacher at the school house, Sunday, Feb. 12, at 11 o'clock.

C. R. Smith writes from British Columbia, of the pleasant winter weather there and plenty of work.

I. D. Graham will move into J. McGregor's home soon and assume the duties of postmaster.

The weather man has given us a variety of weather the past few weeks. The roads are in a bad way, being so drifted in places as to make them almost impossible.

Eastburg, Feb. 12d.

## RECIPROCITY DEBATE COMES UP THURSDAY

Most of Day Was Spent in Committee In Discussion of Public Works and Estimates—Land Bought for Farm Station at West, Sask.

Ottawa, Feb. 7.—The Commons spent the most part of the day in discussing public works and estimates in the course of which there were some interesting questions under review. At the opening of the day, Mr. W. L. Ridd (Anglo-Saskatchewan) (Conservative) of the reciprocity arrangement would be deferred until Thursday. This had been decided after consultation with Mr. Ridd.

Hon. Mr. Graham corrected the figures after yesterday as to the cost of the modernization of the national transcontinental up to the end of December, 1910. The cost was \$12,220,514.

When the vote of \$320,000 for repairs, etc., of Hudson Hall was under consideration, Mr. Ridd of Grenville, asked if there was any truth in the report that the Government had decided to erect a new residence for the Governor General. Mr. Pugsley replied that Hudson Hall was not creditable to this great and wealthy country. Improvements involving \$300,000 had been proposed, but he personally thought it would be better to sell the residence, the value of which was \$700,000 and erect a new government house on some commanding site in the city of Ottawa, which would be a credit to the people of this country. In reply to Mr. Sharpe, of L'Esperance, Mr. Fisher said that the Department of agriculture had bought 223 acres from the Grand Trunk Pacific Development Company for a farm station at Scott, Sask.

## DEATHS.

Bulletin News Service. Mr. Smith's sale on Jan. 31, was a decided success. Nearly everything offered for sale going for a good price. No doubt the frosty weather occurred break bidding.

Mr. Smith is moving into Edmonton this week and Fred Schneider from Strathcona is moving into the house vacated by Mr. Smith having recently bought the farm.

Frank Webster and G. W. Underhill are spending a few days at Red Deer.

John Henning of Edmonton and Albert Weller of Bruderheim were guests of the West last week.

Heaver Hills, Feb. 1th.

Lost on Prairie and Frozen.

Purdus, Sask., Feb. 7.—On returning home on skates after paying a visit to a neighbor, F. Smith found on the prairie, north of Purdus for over twelve hours. His feet and legs to the knees were badly frozen. He was brought here for treatment.

## British Barque Is Ashore.

New York, Feb. 7.—The steamship Allison at sea reported by wireless this afternoon that she had sighted the British barque Cathlamet ashore on a reef on Whiting Island in the West Indies. The Cathlamet, left Wilmington, N.C., on January 17th for Port-au-Prince, Texas, and Melbourne, Australia.

## Calgary Railway Still Pays.

Calgary, Feb. 7.—The municipal railway continues to be a large revenue producer. The fares for January were \$58,000, an increase of the same mileage of last year for the same month. The number of passengers carried was 448,714. The operating expenses increased from \$3,742 last year to \$1,170.

## Blood-Poisoning After a Cut.

Zam-Buk Saved His Finger.

Mr. Albert Brennan, butcher, of 141 Lindsay Ave., Toronto, has good cause to be thankful for Zam-Buk. While at work, he cut the middle finger of the left hand rather badly, but did not think that any serious consequences would follow. Some disease germ—of which the air is full—entered the wound, however, and next day the finger was swollen and painful. He bathed it in hot water and applied some ordinary ointment, but the pain got worse, and the swelling continued. Not only so, but the area of the inflammation extended until from the finger to the elbow it was inflamed and sore, and he knew that blood-poisoning had set in. He had to give up his ordinary work, and suffered acute pain.

Finally he decided to enter St. Michael's Hospital, but just before doing so, having mentioned the intention to a friend, the latter advised him to try Zam-Buk. Mr. Brennan acted on this advice, and soon proved Zam-Buk's great value. He says: "I cured the pain almost as soon as applied, and within a day or two commencing the Zam-Buk treatment, I was back at work. Of course, I don't mean that in that time the wound was healed, but the pain had gone and the danger from blood-poisoning was averted. After that, healing was the beneficial operation of Zam-Buk. I have no hesitation in saying that Zam-Buk saved my finger, and I am very glad to let you state these simple facts publicly in the interests of other workers, liable to similar accidents."

Zam-Buk is equally effective for piles, ulcers, abscesses, eruptions, ringworm, children's rashes, scalp sores, chapped hands, frost bite, and cold sores. Every household should keep a supply handy, and no mother should be without it in the home. Sold by all druggists and stores, five box or post free from Zam-Buk Co., Toronto, upon receipt of price. Refuse substitutes.

Puro is a skilful blend of wheat, corn and rice flours, absolutely pure, and made by the same people who make the famous PURITY Flour. That certifies Puro's goodness.

Yours for better

## JUDGE'S CAUSTIC COMMENT.

Judge Grantlath Attacks Reciprocity in Scathing Letter in Liverpool.

Canadian Associated Press. London, Feb. 7.—Judge Grantlath today at Liverpool sentenced Arthur (Jack) to five years for forgery. The prisoner had been sentenced to three years in Toronto and had been deported after serving one year. About this the judge said that this was the sort of reciprocity Canada has for England, sending her criminals over here to be punished, while in other matters she seeks reciprocity with the United States.

## DISAPPROVE BASIS OF UNION.

Presbytery of Toronto by Vote of 35 to 24 Expresses Field Opposed.

Toronto, Feb. 7.—The presbytery of Toronto again wrestled with the question of church union at the meeting this morning and after a vigorous discussion and by a vote of 25 to 21 disapproved of the basis of the union as accepted by the general assembly. A committee was appointed, with Rev. Prof. Hallstrom as convener to draft an overture to the general assembly expressing the attitude of the presbytery towards the basis of union and indicating some of the reasons why it was not approved.

## MISFORTUNE AND ITS ADVANTAGES

CARTWRIGHT HAS  
NEW GRAIN ACT

IT WILL DEAL WITH TRANSPORTATION, STORAGE AND INSPECTION OF GRAIN.

Ottawa, Feb. 7.—In the Senate this afternoon, Sir Richard Cartwright introduced a bill respecting grain. He stated that he was desirous of having transportation, storage and inspection of grain. The measure was a bulky one as it had been deemed desirable to reprint Manitoba Grain and Inspection Act. The new measure, however, was not extensive, though of importance and would be clearly indicated in the printed bill. As the measure was one of importance, he would give the Senate time for its consideration and would move now for the first reading and set down second reading for a week hence.

The bill was read for the first time. It provides for the appointment of an independent commission of three consisting of a chairman, a member and commissioners all of whom are to be named for the term of ten years. They will have the same extensive jurisdiction over transportation, inspection and storage of grain that the railway commission has over railroads. They will have power to investigate and control all railways relating to transportation, inspection, and storage of grain and have authority to weigh and examine grain when they desire.

To Insure Terminal Elevators. They will also have power to declare which are terminal elevators and which may be used as any elevator. With the consent of the government and on appropriation being made for the purpose by parliament, the commissioners will have authority to acquire by a lease, purchase or appropriation any terminal elevators situated near any grain elevator. They are given authority to employ experts and any necessary staff and are directed to make the bill to create inspection divisions which they may alter as they see fit.

The board is given authority to make rules and regulations respecting grain without the consent of the government being required. Railway steamships are required to give free transportation to grain and its managers and the members of their staff.

Severe penalty provisions are included in the bill for mixing and adulterating grain. It also provides for similar offences against the Grain Act. Similar offences against the Grain Act for the first offence, it is provided that there may be imprisonment for six months.

A clause for the commission is inserted in blank to be filled in when the bill is in the committee. Headquarters at Lakes. The bill provides that the three grain commissioners may reside at either Port Arthur or Port Arthur. One of the three commissioners will be located in one or other of these places. The minimum penalty will be a fine of \$1000. When corporations are found guilty, their officers are made liable to pay a fine of \$1000. When offences are committed or it is found that they are liable for a year in addition to other penalties.

Senator Davis introduced a bill to amend the Dominion Lands Act affecting the free homesteads. Since the act had increased in value, he said there had developed a class of professional homesteaders and his bill proposes that they be broken up as at present, his amendment requires that all homesteaders be required to plant and cultivate at least 100 acres of land and trees. At the suggestion of Sir Richard Cartwright, the bill was deferred on the bill for a week.

## COL. WINGATE TOO FAST.

Some of the Officers of Queen's Own Rifles, of Toronto, Report.

Toronto, Feb. 7.—Capt. George, the well known adjutant of the Queen's Own Rifles, of Toronto, is the latest recipient of the "too fast" notice. A list of that regiment, it is also rumored that Capt. Wingate has been sent to the front.

Least, Col. P. L. Mackay, K.C.O., and Lieut. Col. G. G. Gaultier, the officers commanding the first and second battalions, respectively, will retire automatically on April 1st as their terms of command will then expire.

Major R. K. Baker and J. G. Thorne, recently retired, and there are rumors of some additional changes.

It is said that the parcel of the colonel, Sir Henry Hallett, has proved too great a burden on some of the pocketbooks of his officers.

## A THREATENED BOYCOTT

The Liberator Which Labeled King Must Print Elsewhere. Parts, Feb. 7.—A threatened British boycott has made it necessary for Edward H. James to find another printer for the Liberator. Members of the printing firm which had been doing the work notified him today that they had been informed by a despatch from the British Chamber of Commerce here that the paper had been published in the paper that it is the establishment to lose other than more important business.

Walked Ten Miles and Died.

Boston, Ont. Feb. 7.—Thomas McGuire, unmarried, about 60 years of age, was found this morning in a exhausted condition. He died almost immediately afterwards. He had walked from Lockport, where he had been acting as a hatter, a distance of about 10 miles, during the night, and within half a mile of his home. The coroner is holding an investigation.

525 Fine for Kissing Young Lady.

Brandon, Feb. 7.—The officer in company to a young lady while walking alone from across the street, and finally hugging and kissing her against her will. North, Brandon, a young man, was fined \$25, or 40 days in the strait, for the offence.

## FEED AND FUEL SCARCITY

In Saskatchewan—Conditions Are Serious.

Regina, Feb. 7.—Up to eight districts where horses and cattle are dying from want of feed. The province is living from hand to mouth as regards feed, and one more severe winter will put the entire province right up against it for fuel. That is information handed out by the department of Agriculture, and apparently things have reached the limit of the province. The department states, also, that the situation is serious, and that the situation remains serious. In certain portions, horses are dying from want of feed and getting are unable to get through the deep snow-covered roads for more feed, or to get fuel for themselves.

## 500 FARMERS ARE MEETING AT REGINA

Many Are Delayed Owing to the Storm Along the Railway Lines. Elevator Question Discussion Has Been Postponed Till Late Forenoon. Report from City.

Regina, Feb. 7.—Regina is in possession of grain growers who to the number of five hundred are in session at the Regina Hotel. Their interest is in the attitude the convention will take towards the Government's elevator bill.

This question was to have been discussed tonight, but in view of the fact that large numbers of the delegates are coming from the west, the railway delays, President Gates this afternoon announced that consideration of the question would be held over until tomorrow.

At the corner of the street, though the report lacks any official confirmation, the executive are evenly divided upon the matter and there are not wanting those who fear that any definite position will only be arrived at, at that of serious discussion.

There came a remarkable scene in the City Hall tonight when following a session over an hour's grain commission delegates rose to their feet in chorus and cheered H. A. Partridge, of Rink Lake, to an echo.

In the speech which so deeply stirred the hundreds of delegates present, Mr. Partridge outlined an ambitious scheme for the building and operation of a railway to grain elevators by a company absolutely controlled by the farmers of the West. In this way and in this way, he said, Mr. Partridge could farmers over get the Hudson Bay railway meeting the requirements of the West.

He said that no Government that they might get today, it mattered not of what party, could give them a government owned and operated railway. They must look to the people themselves to provide a line that would reach the level of their ideas.

## OPPOSE ELEVATOR BILL.

Saskatchewan Grain Growers' Convention Take Action.

Regina, Feb. 7.—The Grain Growers' Convention this morning considered the Government elevator bill and asked for government owned elevators, endorsing the attitude of Mr. Hallett. They also asked for government owned telephone, standard implement agreement, lower railway rates, power given to municipalities to plant lands held for speculation, government hall entrance system, government operation and control of the Hudson Bay railway, government operation and control of all coal and water powers in the province, free use of all land and water, improved methods of grading, etc. The convention also asked that the national need the country be met by direct tax on land value, and free trade establishment. The resolution stated that protection is no longer needed for manufacturing industries of the country, and approves of the recent trade agreement. These resolutions are being considered today.

## IN LAST STAGE OF COLLAPSE.

Elderly Man Found in Peculiar Condition in a Suburb of Vancouver.

Vancouver, Feb. 7.—Sitting in a bushy garden, an elderly man was discovered by the provincial police. He was a white-haired man, about 70 years of age, and was found in a peculiar condition, just across the Hastings town line. He was in the last stages of collapse and weak.

He was brought to the General Hospital and the Bureau police were notified. He was so far gone that he was unable to tell his own name. His clothing was in rags and in a shocking state of filth, while his feet, clad only in a tattered pair of socks were blacked and torn, evidently from the combined results of cold, travel and dirt. The man is a foreigner of Spanish or Mexican origin.

## Much Typing in Ottawa.

Ottawa, Feb. 7.—Since yesterday about forty more cases of typhoid fever have been located by the city health department bringing the total number of which there is now a record up to 418. There are now 67 patients in the emergency hospital while the other hospitals are full of patients.

## New Winnipeg Power Plant.

Winnipeg, Feb. 7.—The Winnipeg Railway Company has awarded the contract to the Canadian General Electric Company for the plant for the new power station to be erected this summer. It will be installed near the site of 1,000 kilowatts each.

## NEW ENGLAND FAVORS TARIFF

GOVERNORS OF RHODE ISLAND, NEW HAMPSHIRE AND VERMONT ENDORSE TREATY.

Boston, Feb. 7.—Urging the proposed reciprocity agreement with Canada, a message from President Taft was read over the long distance phone by his secretary, Charles D. Norton, to the members of the Massachusetts state senate at their annual banquet.

The message from the president which was received with much applause was as follows: "I regret that I cannot be present at your dinner and meet the New England governors. I note that the subject for discussion is New England's welfare. I believe that the welfare of New England is the same as the welfare of the nation and that both require the approval of the Canadian reciprocity. Best wishes for the success of your banquet."

"We shall have reciprocity," said Governor Fox, "we may not get it this winter, but it is coming. The people are desirous of it. We are already at work on that job and with the direct election of the senators by the people, the people at last will get their way."

Governor Fox announced himself in favor of trade with Canada. He thought careful consideration should be given to the agricultural provisions of the agreement. He doesn't hear down too hard on the farmers," he said, "you do, it will be to your sorrow."

## THE THREE ELEMENTS OF RECEIPTS.

Washington, Feb. 7.—As a result of the growing belief that the paper and ink before the Canada committee reciprocity agreement will limit one side to the benefit of the Dominion without a corresponding benefit to the United States, an important change is likely to be made by Congress in the measure before it is ratified.

Paper manufacturers and others who have studied the agreement closely believe that the language of the agreement is so drawn that the United States may be compelled to admit paper free before Canada complies with that part of the agreement. This has been agreed to the way and means committee of the House in such strong light that many members believe that the agreement between the two countries is a mere formality.

Secretary Knox, of the State Department, is reported to have written today stating that the commissioners who framed the reciprocity agreement had arrived at only a tentative agreement upon the paper schedule. It can be changed, he said, without defeating the rest of the treaty and it might bear the case of future negotiations or future action of Congress.

## JAPANESE SPIES SPREAD PLAGUE

They Infect Themselves. Then Spread Across Frontier and Enter China.

Pekin, Feb. 7.—The open charge was made here today that Japanese are spreading the bubonic plague in Manchuria and Northern China. The report is based on the fact that the Japanese spies of the most daring and dangerous kind are spreading the plague by infecting themselves with the plague in Manchuria and entering China. The only object can be the infection of the Chinese Empire by the sweep of death dealing germs.

Reports from Harbin and Mukden today stated practically all the villages within a radius of 200 miles had been wiped out by the plague.

One thousand coffins, containing dead bodies which have not been buried, are being turned at Harbin today.

## FELDING DEFENDS TARIFF AGREEMENT

Canadian Associated Press. London, Feb. 7.—W. B. Fielding, last Canadian Finance Minister, has called to a subcommittee through Lord Strathcona a defense of the reciprocity agreement as a result of the attacks of the Unionist party and speakers. He declares that the agreement with the United States has been the policy of all parties in Canada for generations and the idea that the agreement will seriously affect imports from Great Britain or Canada's right to deal with the British preference as she pleases is quite groundless.

Anent Hon. Mr. Fielding's message to Lord Strathcona, the Chronicle says that it is particularly timely in view of the forthcoming debate in the Commons. What is good for Canada is good for the Empire. Greater freedom means greater strength.

The Chronicle says that the Hon. Mr. Fielding's message as nothing short of a rebuff.

Although it does not question the good intentions of the Canadian Government, he says it is not certain that Canada is acting the best in any way in dealing with the deal with the States.

## CANADIAN LIFE ASSURANCE COMPANY THE SIXTY-FOURTH ANNUAL REPORT

Shows that in 1910 the Company enjoyed

## A MOST SUCCESSFUL YEAR

in every essential feature

## FINANCIAL STATEMENT

	\$5,902,070.59

## A FEW OUTSTANDING FACTS from the Report submitted by the Directors at the Annual General Meeting:—

**EXPENSE RATIO** again reduced as in several years past. **SURPLUS** earned, \$1,233,163.11—greatest in the Company's history.

**ASSETS** now stand at \$40,820,856.93; more than doubled within the past 12 years.

**NEW PAID FOR BUSINESS** amounted to \$10,838,384.32. **Total Business in Force**, \$128,274,973.54.

**PAYMENTS TO POLICYHOLDERS** in 1910 amounted to over \$4,789,000.00, exceeding by more than one and a half millions of dollars the payments made during any previous year in the Company's history.

**\$2,000,000.00 IN PROFITS** were allotted to Policyholders last year—a larger amount than at any previous quinquennium.

**PREMIUM INCOME AND INTEREST EARNINGS** show a satisfactory increase. **LARGE RATIO** reduced. **MORTALITY RATE** exceptionally favorable.

The complete Report of the Annual Meeting will shortly be published in the Company's paper, Life Echoes, which will be mailed on request.

## APPEAL ALLOWED IN JOINT STOCK CASE

A Step Taken in the Litigation Between Federal and Provincial Authorities as to Incorporating of Joint Stock Companies Throughout Canada.

Canadian Associated Press. London, Feb. 7.—The Imperial Privy Council has granted leave to appeal to London. This right has been granted.

After the appeal has been decided if the provinces win, the case goes to the Privy Council for the hearing of the issue. If the Dominion wins, the case goes back to Ottawa, to be heard. In any event, the subject must be determined by the Privy Council.

ARMY OFFICER FORGES CHECK. Sergeant of Canadian Permanent Corps at Kingston Purported by Police.

Kingston, Feb. 7.—Sgt. Harrison, of the Canadian permanent army reserve corps, is wanted for forging the name of his commanding officer, Lt. British Halse, to a cheque for \$20. The cheque was drawn by the British North America here. Harrison deserted, leaving his wife and two children without support. He was traced as far as Watertown, New York.
